ITS TRANSMISSION OR REVELATION OF ITS CONTENTS TO OR RECEIPT BY AN UNAUTHORIZED PERSON IS PROHIBITED BY LAW. THE REPRODUCTION OF THIS FORM IS PROHIBITED.

THIS IS UNEVALUATED INFORMATION

50X1-HUM

The construction of a transformer and distributor station was started in Barnkowo (Bernickow) at the beginning of 1951. The station, which will be supplied with electric current from Szczecin (Stettin), will distribute the current further to Chojna (Koenigsberg) and surrounding villages. The present transformer station (supplied by Szczecin), which distributes current to Chojna, is inadequate for requirements since some of the surrounding villages have now been electrified. The new station is located on the eastern border of Barnkowo, on the left side of the road to Rurka (Roehrchen). The foundation and first story were completed in July 1952. The outside electric installations are now being constructed.
